

THE START OF EVERY TASTEFUL PIZZA

Summer closure Production Department

Summer holidays are approaching rapidly!

Also this year our production department will be closed for the yearly maintenance of our production lines. This maintenance will take place during weeks 30 and 31 (24th of July till the 4th of August 2017).

The deliveries and collections of orders will take place as much as possible before and after the holiday period. In case you need your orders to be delivered in weeks 30 or 31, please let us know in advance and we will make arrangements for a prompt delivery. During the maintenance of our production department, our office will be open.

To streamline this process we would appreciate to receive your forecast at the latest by week 25 (Friday the 23rd of June 2017 for weeks 29 till 32). Of course we shall do our best to make sure that most of the deliveries can be guaranteed for this period.

You can send your forecast to: E-mail: sales@montepizzacrust.nl or faxnr.: 0031-76 501 49 49. Thanks in advance for your cooperation!

New packaging solution

“Never stop to develop” is one of our mottos. That’s why we keep developing our product range, our service and our processes to offer you the best pizza

crust products in the world at an affordable price.

Proudly we announce that Monte Pizza Crust is making preparations for the installation of a new packaging machine, which enables us to deliver our pizza crusts packed in shrink film, including a printed sticker and indication of the shelf life. The crusts can be packed by the number you prefer. Ideal for selling in “cash & carry” stores or for retail purposes. We will keep you informed about the machine installation and the launching of this service.

Lead time

As a result of the increasing demand for our pizza crust products, we are forced to optimize our production process based on “fast movers” and “slow movers”. This can be achieved by planning long production runs, minimizing change-over times and maintaining low stock. However, to make this “lean” process a win-win situation for both of us, we sincerely need your cooperation in this. Because most of our products are produced once or twice per 4 weeks, we urge you to place your orders 4 weeks ahead. (17 cm / 7” crusts will be produced once per 8 weeks).

More information about our production schedule will follow. Any questions or remarks about this subject? Call our office at +31 76 5014900.
